Problem

Lights in the master bedroom aren't working properly. Customer said over the phone but he was told this by the people staying in his unit. He asked if we could look into this while we were there and then we can submit to Swift if there is a problem.

Notes:

Details of Work Done

Switch has been changed because it doesn't match rest of van. Somebody takes original and wiring connections from back of switch. See pics
Think it is 2 gang switch plate? with amount of wires there

Steve,
~~into the van~~ This van has been to shows etc. I am not sure what to say to Swift could you explain further? Is the light working or not. Is a switch needed?
Thanks C No photos 4/2?
