02 APR 2013

2013 Swift Moselle 38.12 (2 Bed) s/n 11882H

The new owners popped into the office yesterday to report the following:-

The bath has been leaking badly when the shower is used and the water goes all over the floor. The owners seem to think that the bath has been put into the caravan badly and is not level and needs refitting.

An early engineers visit would be appreciated.

Kind regards

Val Walbridge
