06 JAN 2014

Dear Dougie / Adrienne

Happy New Year to you both – I hope you had a good break.

I'm sorry to say that we have had another list of snags from Wanda Tait the owner of the Bordeaux – I have copied the details as per her list for your attention.

1. Main bathroom radiator is rusting
2. Side wall (facing no.18) creaking. If you press the wall on the inside by the electric socket, under the big picture, it moves. The other sections don't. Previously the support on that side has needed extra "packing". Plus the outside panel needed extra sealant and screws tightened. *Refer*
3. Main bedroom door still sticks at the top – hinge side.
4. Surf bay were going to post a curtain rail end-stop as they brought the wrong one last time.

Many thanks to you all.

Kind regards  
Sue
