Swift sent Andy out to sort out the leak previously on this unit, it has now started to leak again and the site have requested that it is Andy that attends again

Fault Description:

FAO: Rea: Over the Christmas period, the holiday home has begun to leak again in the same place around the barge boards/ roof area at the front of the holiday home. This is not as bad as the original leak but does need to be attended to ASAP. This is a high priority site and this particular issue was escalated to Lisa and Duncan last time.
