Subject: repair work 118

Hi Andy

Geoff and i were chatting and another option that the repairer may like to consider would be to level off the strip thats broken off in the main bedroom just above the break and replace the missing area from the floor to that point with strips of wood ? same width, but something that they could stain to match the bedroom furniture wood. This may be a more robust option?

We'll wait to hear what they think

Thanks

Janice and Geoff 118

Happy New Year x

1st choice is new Bedroom B, bld
to match paper colour
